## **Supporting Achievement**

Students achieve their best when they are attentive and ready to learn. If children are tired, hungry or uncomfortable, it makes learning more difficult. We can all help support the achievement process by remembering some basic numbers: 5,4,3,2,1 + 8. These numbers represent the basic essentials that are needed to support student achievement in the classroom. The numbers refer to: 5 servings of fruits and vegetables, 4 glasses of water, 3 good laughs, no more than 2 hours of screen time, 1 hour of physical activity and 8 hours (or more) of sleep.

The proper combination of good nutrition, hydration, physical activity and sleep, coupled with a dose of laughter, is powerful.

Kicking off the day with a healthy breakfast that includes fruits is a perfect start to consuming 5 servings of fruits and vegetables daily. In addition, substituting water with flavor-infused fruit instead of soda or other sweetened beverages not only offers another fun way to add fruit to the diet, but it also supports hydration. Being physically active every day helps relieve stress, improve concentration and boost energy levels, thus improving focus in the classroom. Finally, anything less than 8 hours of sleep can cause children, and adults, to be less attentive throughout the day, retain less information and struggle to learn as compared to others who get the proper amount of sleep each night. Remember the 5, 4, 3, 2, 1 + 8 rule to help make student health and achievement part of your family's routine.

Sodexo is committed to promoting healthier food choices and encourages students and families to use the USDA MyPlate to build healthy and balanced meals.
